# BANKING CHALLENGES

Common trends we're seeing with large banking clients, as well as our commercial, middle market community banks:

Staffing Shortages, High Attrition,  
Limited Access to Desired Talent

Scalability and Efficiencies for  
Business Growth and Acquisitions

Lack of Visibility into Productivity,  
Cost Per Unit and Work Quality

# Current Strategies and Practices Utilized by our Banking Clients

## Investment in Tech & Digital Transformation

- Robotics and machine learning for managing loan administration processes to improve efficiency ratios
- Customer engagement across multiple digital platforms and technologies

## Staff Augmentation to Optimize Workforce

- Accessing offshore resources to fill technology and operations staffing gaps
- 24 x 7 production leading to higher productivity and quality at a lower cost

# WHO WE ARE

AIS is a Texas-based firm that supports operations and IT functions within the financial services sector.

We work with leading banks to reduce payroll costs by as much as 50% and improve operating efficiency ratio.

Our end-to-end loan administration solutions deliver the lowest cost per unit at client-defined quality levels.

We do the work correctly the first time, maintaining a 99.45% accuracy rating across 160+ processes.

technology and  
talent

# CLIENT BENEFITS

## **REDUCE PAYROLL EXPENSES**

Lower cost per unit for administering loans

## **OPTIMIZE WORKFORCE**

Overcome staffing shortages and limited access to skilled talent

## **BOOST EFFICIENCY**

Improve bank efficiency ratio through reduction of expenses

## **MEASURE WORK QUALITY**

Gain visibility with customized dashboards and reporting

# DATA

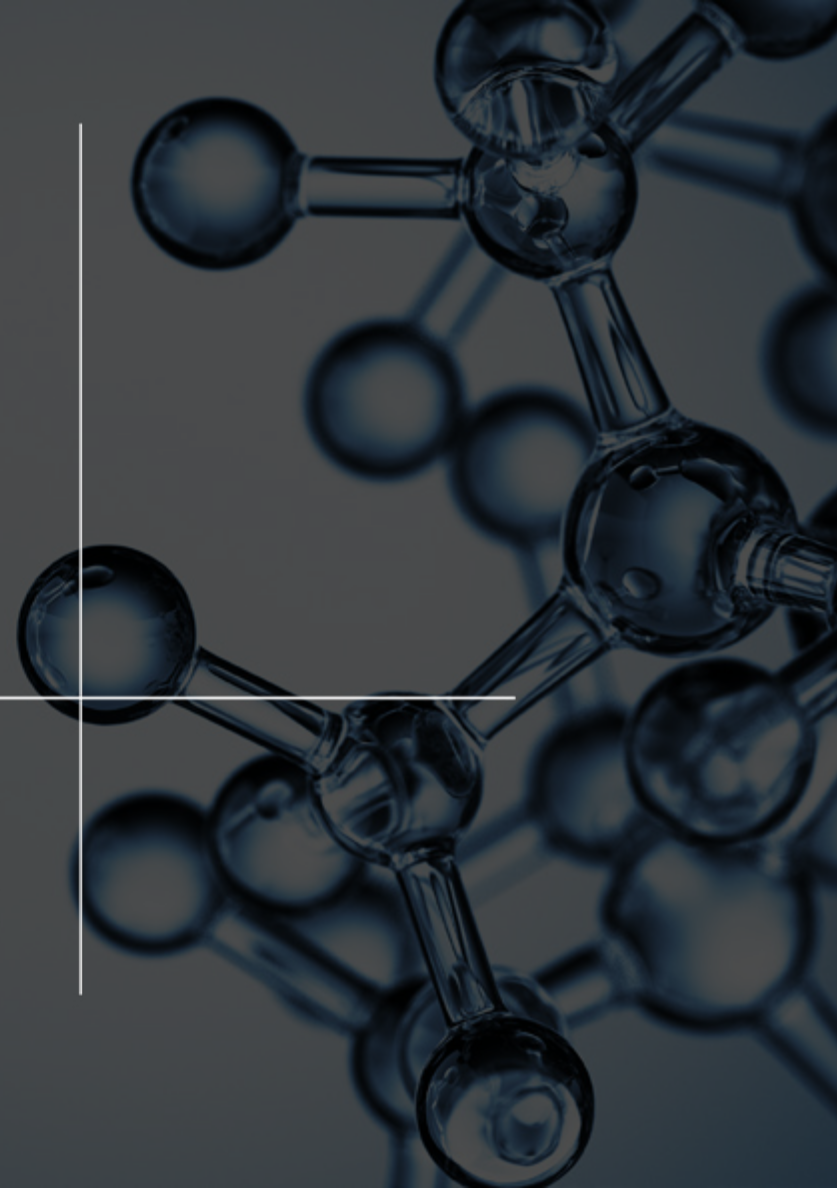

We equip bank decision makers with deep data sets and forward-thinking analytics so they can make smarter business decisions and create better customer experiences

Our Lean Six Sigma certified process engineers document your existing procedures, pinpoint risks and inefficiencies, and recommend strategies to optimize quality and reduce costs

---

## **PROCESS ENGINEERING**

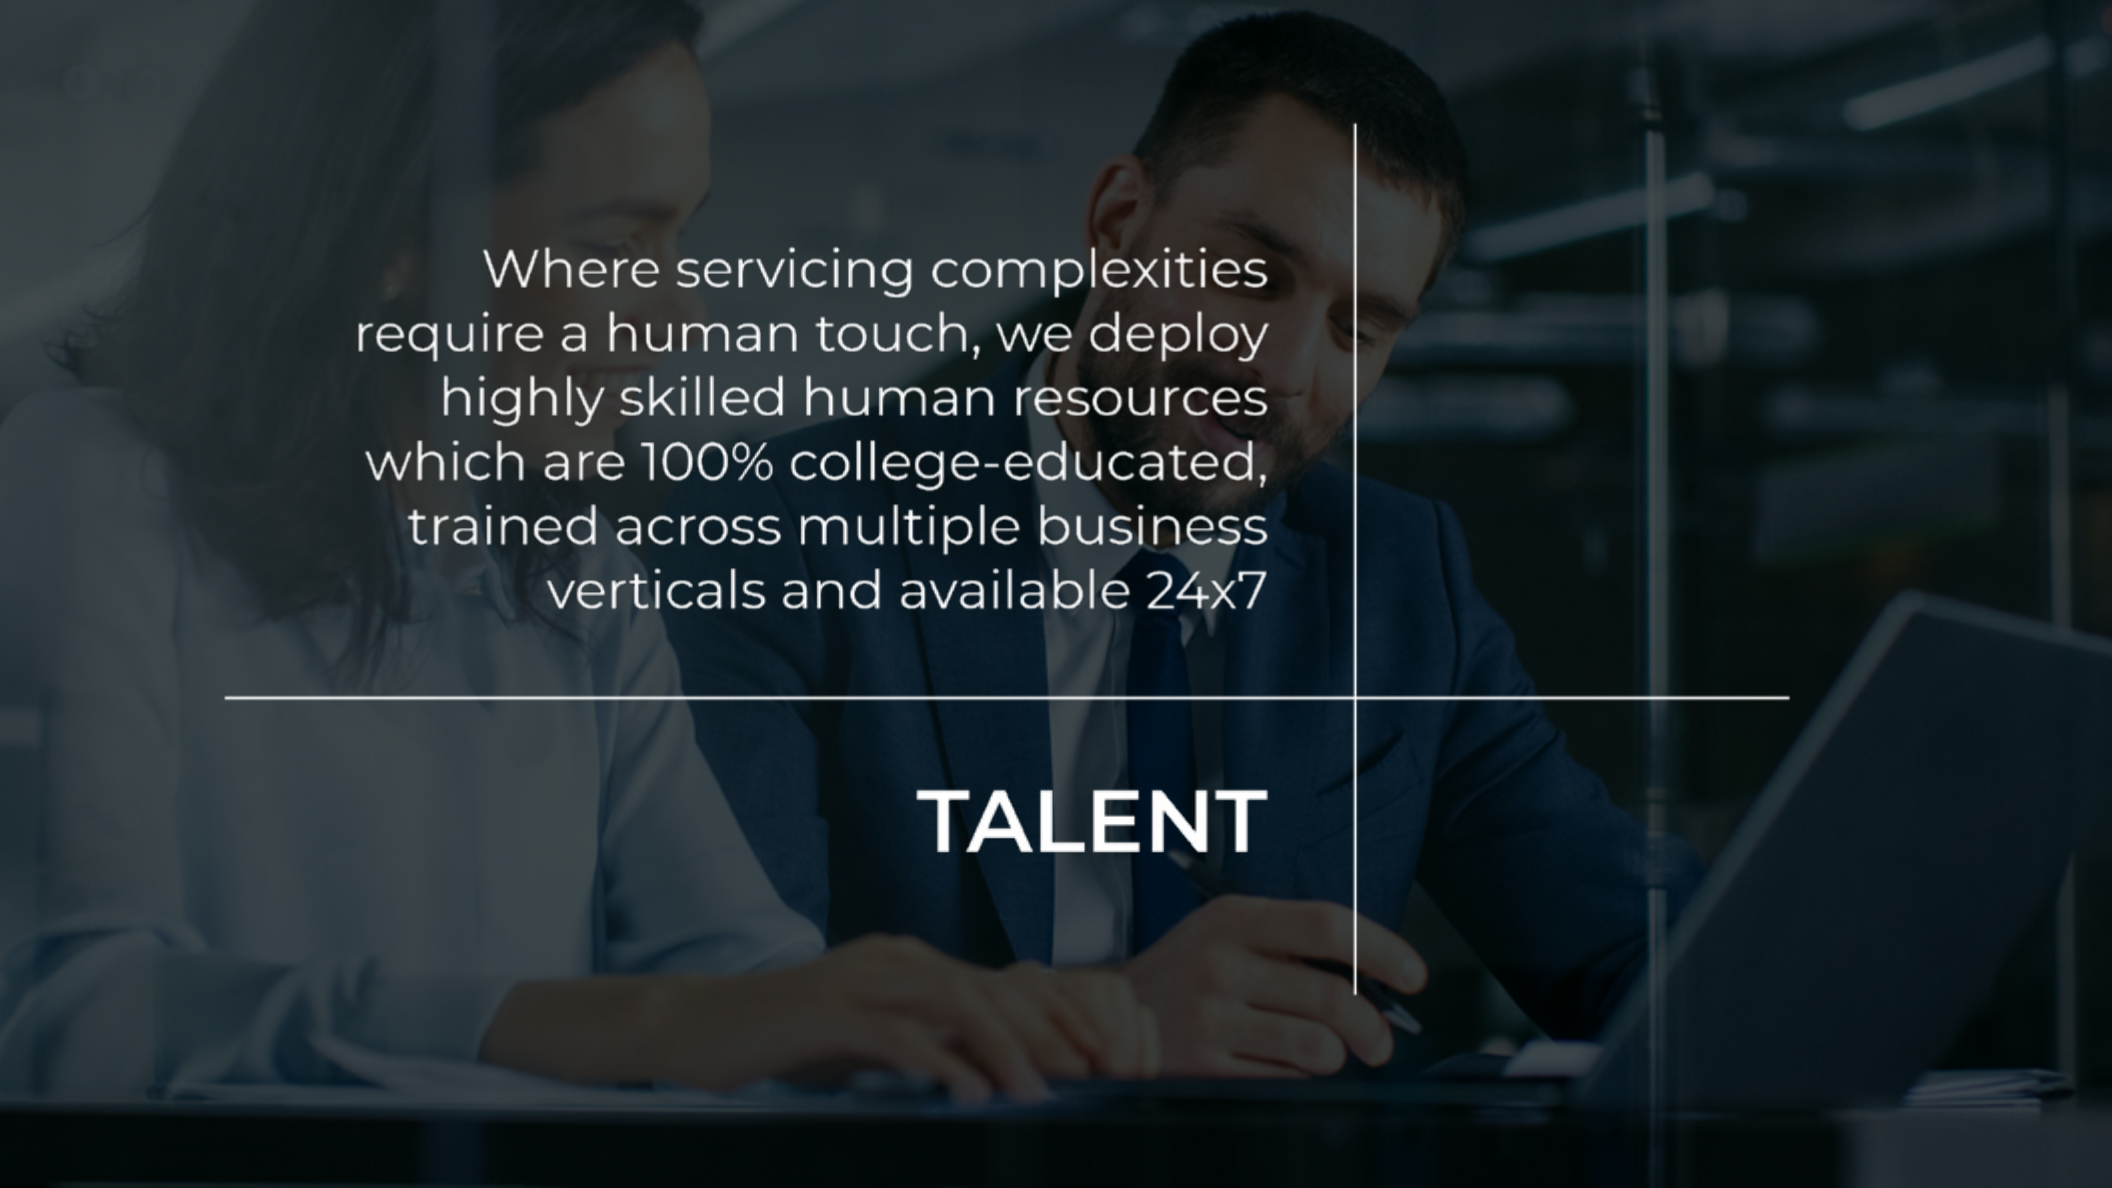

# TECH

We develop robotics with artificial intelligence to optimize productivity, scalability and work quality while lowering operating expenses for our clients

Where servicing complexities  
require a human touch, we deploy  
highly skilled human resources  
which are 100% college-educated,  
trained across multiple business  
verticals and available 24x7
